

EUROPEAN UNION'S REACH REGULATION DECLARATION CERTIFICATE

The European REACH Regulation 1907/2006 on Registration, Evaluation, Authorization, and Restriction of Chemicals (REACH), Annex XVII entered into force in June 2009, and affects all companies producing, importing, using, or placing products on the European market. The aim of the REACH regulation is to ensure a high level of protection of human health and the environment from chemical substances. Our system follows and complies with the current revision of the REACH Regulation on the substances as identified by ECHA (European Chemical Agency). Our products are considered articles as defined in REACH Article 3 (3). These products/articles under normal and reasonable conditions of use do not have intended release of substances. Therefore, the requirement in REACH Article 7 (1) (b) for registration of substances contained in these products/articles does not apply.

Our products/articles do not contain **Substances of Very High Concern** or if there are **SVHC** in the product/article, the content is less than the 0.1% (wt/wt) as defined by REACH Article 57, Annex XIV, Directive 67/548/EEC. Therefore, the requirement in REACH Article 7 (2) to notify ECHA if a product/article contains more than 0.1% wt/wt of an SVHC and tonnage exceeding 1 ton per importer per year is not applicable.

Our products do not contain any of the Restricted Substances as defined by REACH Restriction List Annex XVII Directive 76/769/EEC, or that the restricted substances meet the conditions for that substance's use as outlined in the list at: <https://echa.europa.eu/home>

Micross STS has taken and continues to take commercially reasonable steps to provide representative and accurate information concerning the application of REACH our products.
